SUMMARY

Front-End Developer with 7+ years of experience building scalable, responsive, and user-centric web applications. Specialized in modernizing legacy systems into high-performing Angular solutions, with a strong focus on UI/UX, performance optimization, and maintainable code architecture. Adept at collaborating with cross-functional teams to deliver impactful digital experiences across diverse industries.

EXPERIENCE

- Front-end Developer - Scenario Cloud (Vela Software Philippines)

Oct 2020 - Apr 2025

 - Modernized 80+ legacy pages into a responsive, user-friendly UI, improving navigation and customer satisfaction.
 - Refactored monolithic code into modular components, enabling scalability and cross-application reuse.
 - Built reusable templates and unit-tested components, boosting performance and reliability.
 - Partnered with designers to translate UX principles into polished, brand-aligned interfaces.
- Front-end Developer - Arventa (MSDS.COM.AU)

Nov 2019 - Mar 2020

 - Delivered a fully responsive redesign of legacy web pages, enhancing accessibility across devices.
 - Developed new features aligned with evolving business needs while maintaining legacy compatibility.
 - Diagnosed and resolved critical bugs, ensuring application stability and smooth user experience.
- Software Engineer - Pointwest Innovations Corporation

Mar 2016 - Sep 2019

 - Built and enhanced product features to improve usability and client satisfaction.
 - Translated client requirements into technical specifications for development teams.
 - Supported API migration while maintaining backward compatibility for legacy systems.
 - Delivered UI components aligned with design standards and user expectations.

EDUCATION

Bachelor of Science in Information Technology

Jun 2008 - Mar 2013

AMA Computer Learning Center - Gapan City, Nueva Ecija, Philippines
